| <b>Intern</b><br><i>ZeroForg</i>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 | June 2026 – August 2026<br><i>Remote</i> |
| <ul style="list-style-type: none"><li>Contributed to a voice agent project, developing foundational knowledge of speech-based artificial intelligence systems under mentor guidance</li><li>Studied core speech processing concepts, including digital signal processing, Fast Fourier Transform, spectrograms, and Mel spectrograms</li><li>Researched automatic speech recognition and text-to-speech architectures alongside open-source speech models</li><li>Explored how large language models and natural language processing integrate into real-time voice pipelines</li><li>Compiled a structured study guide and delivered a 15-slide presentation to a mentor and engineering review panel</li></ul> |                                          |

## PROJECTS

</

## CERTIFICATIONS

- Google Cloud: Introduction to Generative AI Studio | [Certificate Link](#)
- Microsoft: Introduction to Prompt Engineering with GitHub Copilot | [Certificate Link](#)
- JPMorgan Chase & Co.: Software Engineering Job Simulation | [Certificate Link](#)

## ACTIVITIES

- Lead Guitarist, Conundrum – Western Music Band of PGDAV College
- Led rehearsals and coordinated live performances for a 6–8 member band, performing at 10+ college events
- Battle of Bands: 2× Winner, 2× Runner Up, 2× Special Mention
- Contributed to the planning and execution of annual college cultural events
